## CQG

CQG's global market data is fast, accurate, and reliable. CQG's high-speed consolidated market data feeds deliver real-time and historical data from over one hundred global sources. Ongoing innovation in data management and transmission technologies enables us to deliver ever-increasing market data volumes. Dedicated teams of specialists in five locations across the globe actively maintain data quality.

A data quality group monitors our global data network twenty-four hours a day to make certain our customers get the clean data they need, when they need it.

Continuum, a division of CQG, offers trade execution and data distribution for order execution and market data platforms, applications, and proprietary systems. Continuum leverages CQG, Inc.'s collocated Hosted Exchange Gateways as well as its access to over a hundred sources for global market data and to over forty exchange for trade routing.

Investor/RT supports CQG Continuum market data and execution services for clients who clear through Advantage Futures, AMP Global Clearing, Dorman Trading, and Phillip USA FCM's. Supported brokerages include AMP Futures, NinjaTrader Brokerage, Stage 5 Futures, Tradovate, and many more. Additional FCM's are under consideration. If your FCM is not yet supported, please [contact](#) Linn Software to register your interest.

Continuum is based in Chicago, Illinois with support worldwide. CQG Continuum connectivity is newly supported by Investor/RT. A \$15/month platform technology fee is required for CQG Continuum access; add CQG Market Access to your license to enable your subscription for use with CQG Continuum. Investor/RT subscribers who wish to try the CQG Continuum connectivity using a demonstration account with simulated trading can [sign-up for a free 14-day demo account](#), or use Investor/RT with your existing live trading account after contacting your broker to enable your CQG credentials for LinnSoft-Investor/RT.
