Woodie's CCI (WCCI) [1]

Woodie's CCI is a proprietary indicator developed by Ken Wood. WCCI is a derivative of the Commodity Channel Index (CCI) [2]. For more information on trading with Woodie's CCI indicators, visit www.woodiescciclub.com [3]

Presentation

Above is a 3-minute of the S&P Mini Contract (@ES#, DTN IQFeedl). The WCCI indicator is plotted in the lower pane in the chart.

Preferences:

- **CCI** -This checkbox turns the primary CCI on and off. When turned on, the user is able to specify the style, color, and width of the CCI within the chart.
- **CCI Period** -Period used for the primary CCI (default: 14).
- **CCI Turbo** -This checkbox turns the CCI Turbo on and off. When turned on, the user is able to specify the style, color, and width of the Turbo CCI within the chart.
- **CCI Period** -Period used for the CCI Turbo (default: 6).
- **Trend Bar Histogram** -This histogram follows the primary CCI.
- **Sidewinder Indicator** -The Sidewinder indicator lies along the 200 and -200 lines.
- **Chop Zone Indicator** -The Chop Zone indicator lies along the 100 and -100 lines.
- **Zero Line Indicator** -The Zero Line indicator lies, naturally, along the 0 line.
